IN GARAGE DOOR HARDWARE.

ARROW

MOVING FORWARD

▶ **Quality Manufacturing**

Through our extensive manufacturing capabilities and commitment to Engineered Innovation™, we deliver solutions to every one of your project needs. With a hands-on approach to precision and quality, you can count on everything we produce to deliver long-lasting, reliable performance., and have the engineering and manufacturing capabilities to do much more. Our fully equipped facilities offer:

- Roll Formers
- Benders
- Press Brakes
- 300-Ton Press
- Shears
- Riveters
- Stamping Presses
- Hinge Machines
- Bagging and Kitting lines

Global Power

Arrow Tru-Line has successfully imported products for over three decades. With low initial tooling costs, engineering support, and convenient warehousing at our many distribution centers, we can offer the savings you need to stay competitive. Arrow contracts with over 25 factories along the Pacific Rim. Regional offices are staffed with Arrow personnel for on-site control and processing. Overseeing all aspects of the project, including quality and production, from concept to mass production runs. We specialize in the following areas of manufacturing:

- Stamping
- Aluminum Die Casting
- Zinc Die Casting
- Keyed Lock Sets
- Iron Casting
- Plastic Injection
- Light Assembly
- Cable & Chain
- Forging
- Fabrication & Welding
- Aluminum Extrusion
